

## Included in this Intersoft Certification Solution:

**E-Learning:** 5 x e-Learning collections with a total duration of 136 hours (equivalent to 23 days of classroom training). Unlimited access for one year per individual subscription.

**Books:** 5 x books with a total of 3920 pages.

**Additional Resources & Tools:** Learning plan, practice tests, evaluation software and much more. See below for details.

## Microsoft Certified IT Professional (MCITP): Windows Server 2008 – Enterprise Administrator

The Microsoft Certified IT Professional (MCITP) certification provides the ideal way to demonstrate your ability to use Windows Server 2008 to excel in a specific, market relevant job role. This program validates your ability to design Windows Server infrastructures; evaluate and recommend new technology solutions; serve as an escalation point for infrastructure issues; develop client and server best practices for other teams, such as engineering, development, and operations; keep policy current for authentication, identity and access management; provide guidance in implementing security policies that affect the infrastructure on multiple levels; participate in application reviews on security; and ensure that the applications adhere to standard security guidelines and practices.
