

Included in this Intersoft Certification Solution:

E-Learning: 3 x e-Learning collections with a total duration of 68 hours (equivalent to 12 days of classroom training). Unlimited access for one year per individual subscription.

Books: 3 x books with a total of 2480 pages.

Additional Resources & Tools: Learning plan, practice tests, evaluation software and much more. See below for details.

Microsoft Certified IT Professional (MCITP): Windows Server 2008 – Server Administrator

The Microsoft Certified IT Professional (MCITP) certification provides the ideal way to demonstrate your ability to use Windows Server 2008 to excel in a specific, market-relevant job role. This program validates your ability to handle day-to-day management of the server operating system, file structure, and directory services; handle software distribution and updates; monitor servers; provide tier-2 troubleshooting support; support engineering and change-management projects; build and configure servers; implement auditing policy; perform scheduled vulnerability-assessment scans; and monitor logs for firewalls and intrusion-detection systems.
