Microsoft Certified Technology Specialist (MCTS): SharePoint 2010, Development

Many companies are investing in collaborative technologies like those offered by Microsoft SharePoint Server to help manage and share vast quantities of valuable information. With a Microsoft SharePoint Server certification, you can assist them. Get certified to build and configure web portals, integrate business applications and manage administration and deployment of collaborative solutions.

The Microsoft Certified Technology Specialist (MCTS) SharePoint Development certification is aimed at developers who work with Microsoft SharePoint 2010 and wish to validate their knowledge and skills to develop, customise and integrate SharePoint applications in an enterprise environment.
